

Lubin Olson's Business Practice Group provides cost-effective business and corporate counsel services to a broad range of clients, from high net worth individuals to start-up, early stage and emerging growth entities to established public and private corporations. Our clients work in a wide range of business sectors, including real estate investment and development, manufacturing, retail, technology, financial services, natural resources (timber, minerals, oil and gas, solar power, and water), public relations, sustainability industries, construction, multimedia, food manufacturing and distribution, hospitality, and professional services.

Our practice encompasses nearly every facet of business and corporate operations. We serve as outside counsel and strategic advisors on all matters, including entity formation, debt and equity financings, private placements of debt and equity securities including angel financing and venture capital transactions, strategic alliances, license agreements and joint ventures, corporate and entity governance, domestic and international commercial transactions of all types and negotiation, due diligence and documentation of complex mergers, asset and stock acquisitions, spin-offs and other dispositions. We also advise our clients on issues pertaining to partner member and shareholder disputes, corporate successorship and planning issues, equity incentives and executive compensation, confidentiality agreements and restrictive covenants.

We efficiently staff our matters to ensure that our clients typically deal with one or two attorneys, each of whom is intimately familiar with their business and is dedicated to providing responsive and experienced service.
